INTER PARES Summer School

September 2022

Enrol Today!

New E-learning courses

[The Gender course](#) aims to help you identify the key texts that outline gender sensitive parliamentary norms and pinpoint key decision makers and influencers, in your own parliamentary context, that will support gender sensitive change; as well as explore gender-sensitive changes that have been adopted elsewhere that may be applicable to your context.

[The Budget course](#) aims to provide the foundations, vocabulary, tools, and 'good practice' examples necessary for parliamentary staff across differing socio-economic contexts to engage more actively in matters of the national budget.
