

Parliamentary engagement with youth

Across the world, young people are under-represented both as elected representatives in Parliaments, and in the policy debates that impact youth.

A YOUTH STRATEGY

INTER PARES developed a Strategy, providing a framework through which the project will support engagement of partner Parliaments with youth.

15-30

INTER PARES' Strategy focuses on young people aged 15 to 30.

Genuine inclusion means ensuring that young people's voices, needs and interests are considered throughout the policy process.

ACTIVITIES
